## WORK EXPERIENCE

---

### Pattern Specialist

#### G-Star Raw

📅 March 2025 - April 2026

📍 Amsterdam

- Worked closely with designers into creating patterns for both new styles and fits and pattern updates. Input in design for the Archetypes line.
- Drafted patterns for new designs and worked directly with tailors to realize first samples.
- Improved digital sample accuracy by comparing digital fabric swatches to the atelier inventory.
- CLO3D problem solving and direct communication with the CLO3D team about necessary fixes, resulting in ongoing improvements in direct from CLO3D plotting.
- Created manuals for the relevant teams regarding CLO3D usage and communication between CLO3D and Gerber.
- Intensively worked with PLM in uploading measurement charts, pattern updates.

### Design intern, men & women woven

#### G-Star RAW

📅 February 2024 - August 2024

📍 Amsterdam

- Analyzed trends and did design research into relevant collections, compiled reports using both physical mediums and Adobe InDesign.
- Developed and tested samples using CLO3D and sewing techniques.
- Integrated CLO3D into the design process for digital visualization, simplifying communication between Design and Atelier.
- Created technical drawings and worked with Centric PLM for setting up tech packs.

## PROFESSIONAL SUMMARY

---

Fashion and Pattern Designer with a strong foundation in CLO3D digital visualization and garment construction. I am drawn to designs that balance a distinct use of colour and materiality with functionality. Working between the creative and technical, I have an appreciation for designs that go a little further.
